Saturday street scene angers resident

"I was in the town of Minden on Saturday afternoon, May 17, 1980, and was not only surprised by what I saw, but was thoroughly disgusted to think that I live in such a town."

The comments are those of Dennis Willison of Minden, and were contained in a letter the man had written to the township council. The letter was read at the June 11 meeting of the council.

According to the writer, during his visit to the core area he encountered three youths drinking beer on the sidewalk and, "The patrons of the Rockcliffe Hotel were drinking on the street, parking lot and surrounding area."

"This is not the first time I have encountered this scene," Mr. Willison's letter stated. "The riffraff the town attracts by having a beer garden is of no benefit to any town."

The writer asked the council a number of questions, including:

"Do you think you should allow such a beer garden if you cannot properly control it?"

"Do you think these people enhance the town to tourists, or even to our local people?"

"Do you think the Rockcliffe Hotel is not making enough money selling alcohol behind closed doors, that you have to let them spill it on the streets?"

"What kind of town are you striving to develop?"

"Do you think you should consider the size of your law enforcement before you give out liquor licences so liberally?"

Willison said he had contacted the Ontario Provincial Police who told him that the situation was beyond their control due to a lack of manpower. The writer stated that he had a deep concern for the area and that he believed the council shared his concern.

In response to the letter, Reeve Sinclair Nesbitt pointed out that if there were laws being broken on the street as indicated in the letter, they were outside of the municipal jurisdiction. He commented that there was no way of telling if the youths

seen drinking beer on the street had purchased it at the hotel in question. "The whole thing is a police matter," the reeve commented.

Nesbitt said the council had heard complaints in the past and a special hearing had been convened by the Ontario Liquor Licence Board in Minden to air them. He said only one person bothered to attend the hearing.

Councillor Len Lonsberry added that when problems had arisen in the past liquor inspectors were called in to investigate. He said it was up to the inspectors to close the hotel if the business was not operating according to the provisions of its licence.

"I would not take my children into such a town to view such vulgar displays of indecency," Williamson commented in his letter. "I only wish I had more time and had taken pictures." He indicated he intended to do that the next time he came upon a similar situation.

(The complete text of the letter from Mr. Willison appears on page 4)

Yes, it does fly! As a matter of fact it did Sunday at the Stanhope Air Show to the delight of many spectators who braved inclement weather. This home made gyrocopter, built and flown by Dr. Jerry Zemell of Toronto, was one of the featured performers. The Air Show was hurt again this year by rain and mist. Many of the performers were unable to attend because of the weather conditions and others could only perform a limited number of manoeuvres because of the low ceiling. Organizers have tentatively announced plans for a second show to be held later this summer. July 12 was announced as a possible date for the performance.

Body found in Kushog Lake

Police divers pulled a second body from the waters of Kushog Lake late Tuesday afternoon. While no positive identification had been made at press time, the body is believed to be that of Bruno Guerrero of Toronto.

He is believed to be one of the two youths who set out on the lake in a canoe June 3. They were staying with three friends at a cottage. The body of his companion, 19 year old Mario Anthony Morra, also of Toronto, was found June 4 after another resident of the lake reported finding an overturned canoe.

Police divers have been searching the lake for a number of days in an attempt to locate the second body. Four divers were involved in the search Tuesday.

The youths had been holding a celebration prior to their graduation from St. Michael's College in Toronto when the mishap occurred.

Park possibly included in MNR resource study

A provincial park for Haliburton County, fish stocking, and forestry management were three of the concerns expressed by Minden Township council June 11 when they met with representatives of the Ministry of Natural Resources

during the regular council meeting.

The representatives, Warren Evershad, district planner and Grahame Wales, lands technician, appeared before council to explain the district land use assessment which is currently taking place in the area. MNR is seeking the input of the council as well as the general public in its attempt to develop a long term plan for land and resources in the province.

Evershad explained that the various branches of the ministry had been involved in planning in the past, but that the efforts were mainly aimed at the individual objectives of each department. He said that this latest effort will attempt to co-ordinate all aspects of the ministry.

The planner's purpose in appearing before council was to explain what was taking place and to give the council an opportunity to offer comments. He noted that the study is just in its initial phase and formal submissions from the council will be requested later this fall.

None the less the councillors were able to offer some observations now. Councillor Len Lonsberry asked about the possibility of the establishment of a provincial park in the county. Evershad said that possibility will be studied in the review currently underway.

Reeve Sinclair Nesbitt

pointed out that the county development strategy has indicated that the Vankoughnet Road would be a good location for a provincial park. "If you are planning to go ahead with a park in that location, we would like to be in on the details," the reeve stated. "so we can have time to improve the Bobcaygeon Road north of Minden." Evershad pointed out that this is the sort of information the MNR study hopes to produce so that the efforts of the ministry and the municipalities can be co-ordinated.

Evershad noted that while the ministry has jurisdiction over resource use on Crown land, it has less control over what takes place on private land. He said that the ministry will attempt to influence private land holders to take part in the overall planning process.

He told the meeting that 40 percent of the land in Anson, Hindon and Minden townships is privately owned

Additions

Two names were missed in last week's list of students who had completed their high school year without being absent and who were exempt from writing final examinations.

Chris Stoney G1C will not be writing finals this year and Randy Sawyer, G2E, had a perfect attendance record during the school year.

and that close to 60% of the timber resources are on private land.

Evershad said these figures indicate the importance of including the private landowner in the planning process.

Reeve Sinclair Nesbitt agreed with the ministry officials that the planning process was important. "It is especially important that the people of the municipality have an input in the process," the reeve commented. He pledged the council's support for the undertaking and indicated that the township would be willing to make a formal submission later this year.

Like father, like son

There was a bang-up celebration for Father's day at the Kant cottage near South Bay Road in Harburn Township.

The special day of the year will carry lasting memories for father, 61 year old Valentine Kants of Willowdale and his son, 30 year old Patrick Kants of Oakville.

As Patrick was proceeding south on the road toward the family cottage, Valentine was travelling south. The two cars started to climb a hill in the road and upon reaching the crest, crashed into each other.

Damage to Patrick's vehicle was estimated at \$600 while his father's auto sustained \$2000 damage.

The accident was investigated by Constable Brian Dunham of Minden OPP.

FROM THE CHAMBER

By Bob Stinson

Ontario - your's to discover.

This is the new punch line behind this year's major marketing plan being implemented by the Ministry of Industry and Tourism. Many of you will, by now, have seen the 40 page supplement that was included with the week-end newspapers. This year the ministry is making a concerted effort to encourage people in Ontario to vacation right here in their own back yard, rather than travelling out of the province or the country.

The final two pages of the supplement list the various Ministry publications that are presently available and you will find these books on display, along with Haliburton area books and brochures in the Chamber office, the Haliburton Caboose, and the Cardiff Log School House info centres.

Another part of the ministry's marketing plan is the hospitality seminars. The ministry sees that the promotional efforts may all be obliterated by the wrong attitude or method of handling customers by owners and employees. To help avoid this problem they are providing these seminars free of charge and the Chamber is pleased to be working with them as the sponsoring body. See the coming events column for specific details.

Grading system

One of the most controversial projects to be introduced by the Ministry of Industry and Tourism for many years is now in the formulation stages. Grading of accommodation facilities is important and considered absolutely necessary to orderly growth of this important industry. It is however going to be very difficult to come up with the criteria to allow for a minimum amount of discretionary decisions to be made in deciding on a grade for a given resort.

Tourism Ontario, which has representatives of all the tourist organizations on its board, has taken on the job of setting up the rules and implementing the system on a "pilot" basis to field test it. They are presently seeking input from Resorts Ontario members as to their concerns with the suggested format. It envisages a scale of one to five stars given on the basis of

facilities both in the accommodation and on the grounds. Once the policy is set owners will be advised of their ratings, and will have adequate time to upgrade where necessary to move them into a higher category.

We hope that anyone being asked for their comments on this project will offer their utmost co-operation, since the final plan will be the result of feedback received from resort owners.

Algonquin Park five year review

Copies of the Ontario Provincial Parks Council Five Year Review for Algonquin Park were received from the Ministry of Natural Resources this week. In it the council presents their recommendations to the Ministry, and the Minister, James Auld, provides their response.

At meetings prior to preparing this document briefs were presented by the municipality of Dysart, the Snowmobile Association, The Chamber, and the Economic Development Commission. The council in their recommendations concurs with our submissions that asked that the townships of Clyde and Bruton be retained in the park with special status, that snowmobiling be continued to be allowed on the Hydro right-of-way to Whitney, and that an access point be developed at the Galipo-Wildcat lakes area to provide a point of entry from Haliburton County. The minister in turn agreed with all three recommendations and added in the case of the letter that it will be "further studied in relation to the nearly completed Regional Parks System Plan for Algonquin Region".

There are a number of other well received recommendations in the review including somewhat of a reversal on the original idea of phasing out all commercial establishments in the park. Ministry staff have been directed to carry out a study of the accommodation facilities in the park and even consider whether there should be any other types of such facilities provided.

The new Chamber post cards are here and presently being distributed to those that ordered them. If you forgot to phone us, do so today before they are all sold. 286-1760.

New speed limits tangled in red tape

Updated boating restriction regulations will not be in force for the 1980 season because of bureaucratic delays.

In a letter from F.P. Maher, fisheries policy coordinator with the Ministry of Natural Resources, to Stanhope Township, the council was told that there is a long process which must take place from the time submission of

the regulations is made and their actual coming into effect.

Maher outlined 10 steps which must be taken before completion. These include: 1. Mailing the submission to Ottawa from the Toronto MNR office.

2. Proofreading and retyping in legal format by the Safety Division of the Canadian Coast Guard.

3. French translation.

4. Legal examination and drafting by the Justice Department which specializes in Coast Guard work.

5. Approval and distribution of blue star copies under the Statutes of the Privy Council.

6. Regulations are then sent to Chris Hayes of the Safety Division who sends an explanatory memo to the Deputy Minister, Minister, Chief, and Commissioner.

7. Final check by Justice Department.

8. Recommendation of the regulations to the Privy Council by the Minister.

9. Regulations sent to Governor General for signing and preparation for an Order

Wednesday, June 18, 1980

in Council.

10. Regulations are published in the Canada Gazette.

Maher said that the process has taken as much as nine months to complete and that further delays can occur at any time during the process.

The regulations being requested by Stanhope council would set maximum limits for the speed of boats in certain areas of the township. The new limits were approved last year by the council and forwarded to the Ministry of Natural Resources for processing.

According to the township clerk, Gerald Bain, until all parts of the lengthy procedure outlined above is completed, police will be unable to enforce the new limits.

Help sought

Minden council will make representation to the Ministry of the Environment with regard to the deficit incurred in the operation of the municipal water system. The decision to approach the ministry was taken at the June 11 meeting. It followed a lengthy closed session during which the members of the council met with representatives of an auditing firm to review the municipality's financial report for 1979.

The council said that increases in interest rates during 1979 had been responsible for the deficit incurred by the water system. The ministry will be approached to help meet the debt of the system.

In another effort to stem the deficit, the council formally approved a water rate increase for water users in Minden Village. The rate hike, discussed at the May 28 meeting, will be 50 percent. The by-law authorizing the increase was passed by council.

Look who's stealing your electricity.

A stove exhaust fan filter clogged with grease and grime makes the fan motor work longer and harder to draw air through. Just soaking the filter in mild soap or detergent will fix this energy waster.

Use Energy Wisely

Tune-up, clean up. It's simple. Appliances that are clean and well-cared for last longer and use less electricity. Over the long run, you can save money on appliance replacement. And of course, the less energy you waste, the more dollars you save.

Grease and burnt-on food really reduce your oven's efficiency. A clean oven works better and uses less electricity. Opening the oven door too often also wastes valuable heat. If you have a window in the oven door, keeping it see-through clean can clear up the problem.

Don't waste your energy.

College offers 'survival' courses

Sir Sandford Fleming College, Haliburton Campus, has added a new and interesting course to its roster. This fall it will be offering a seven week program designed for those considering heading 'back to the land', or those who have already made the jump but who have had difficulty adapting to their new surroundings.

Described as a course to include a variety of practical skills, the course is divided into three segments covering food, shelter and energy. The course begins September 1. The Food portion will run from September 1 to September 20; Shelter from September 22 to October 4; and Energy from October 6 to 18.

The first course section, (Food) will deal with the theoretical and practical aspects of producing and storing meat and vegetables. Topics to be covered include animal husbandry, butchering, processing and preservation, and soil management.

Students will be instructed in the facilities and feeds required by various animals, as well as in preventative veterinary medicine and such practical skills as how to milk a cow.

Humane methods of slaughtering both large and small animals will also be taught. Students will learn

management from an owners point of view. The practical use of woodlot materials to renovate, maintain and extend farmstead requirements will also be taught.

Students who enroll in this section of the course will also have ample opportunity to try their hand at actual building projects using pole, log and timber joinery.

The Energy section is divided into two parts. The first is devoted to horsepower. In it, students will learn the basics of keeping, outfitting and using a work horse. Each student will have a chance to

how to cut meat using readily available tools, as well as how to make use of otherwise wasted parts such as heads and internal organs.

Included in the topic of food preservation will be sausage making and smoking meat.

Instruction in butter and cheese making and the correct method of canning vegetables and fruits will round out this section of the course.

The two week session of Shelter will begin with an analysis of farmstead woodlots from a purchaser's point of view, and woodlot

harness and drive a team of horses in various work situations on a farm and in a woodlot.

The second half of this section will emphasize alternate energy sources. Participants will gain experience in harvesting fuel from a woodlot and will be instructed in the theory and practice of heating with wood. Field trips and discussions with individuals making use of solar, wind and water energy will be available as resource persons to the group.

The size of each class will be limited to five. As well, the classes will follow a "hands-on" approach, giving participants an opportunity to learn by doing.

Those interested in more information on the courses can contact Barb Bolin at the Haliburton Campus, 457-1680.

New officers elected

A new slate of officers was elected at a recent meeting of the Catholic church women of Our Lady of Fatima Church in Minden. The meeting was held at the home of Mrs. Mary Van Lieshout.

Mrs. Alice Cox will be the president of the organization for the coming year. Other members of the executive include: Mrs. Fern Donnelly past president, Mrs. Margaret Scheppers vice president, Mrs. Eileen O'Brien and Mrs. Anne Maher secretaries, and Mrs. Louella Yearwood treasurer.

The members also consid-

ered a number of projects for the coming year. The group will be involved with making and selling Happy Highlander charms and lapel pins. As well, the group hopes to raise funds through the sale of attractive seasonal tablecloths.

The ladies will also be assisting in the local Meals on Wheels program and have volunteered their services as drivers. Mrs. Chris Dollo will co-ordinate this effort.

The next meeting of the group will be held in September.

Editorial

Providing leadership

While it is difficult to comment on the situation, (since we did not observe the events personally), we feel that some mention should be made here of the activities that are reported to have taken place on Minden's main street on the afternoon of Saturday, May 17. If half of what we have heard and has been recorded in letter from is correct, (a letter which was addressed to township council on this matter is reprinted elsewhere on this page), it is time that some action was taken.

Our community, to its benefit, is located in the centre of an attractive part of Ontario. Each summer the community welcomes thousands of visitors. The visitors, transient tourists and seasonal residents all play an important part in the economic health of this area.

One of the main attractions we have to offer is the pleasing contrast in lifestyle and environment between here and the city. This area provides an escape from the rush and bustle of the urban centres, a chance to get away from the noise, to relax and enjoy recreation in a beautiful setting.

Vacation centres however, can also attract a less desirable sort of individual, one who cares little about the community or environment. From the comments of a number of Minden residents, it appears that our community and the welcome environment so many come here to find, may be threatened by this latter sort of individual.

Certainly, we all want people to relax and enjoy our community, but we also want them to treat it with respect and with consideration for the rights of others.

The suggestion was made at last week's township council meeting that if individuals were breaking the law, as described in the letter read at the meeting, the enforcement of the law is the responsibility of the OPP. While it may be provincial laws that were being broken, the municipal representatives have a responsibility to speak up if the character and ambience of a community is being ruined by a thoughtless few. If there is no leadership from the local representatives, can we expect individual citizens, or those entrusted to enforcing the law, to place much effort in their attempts to make this a better place to live and visit.

Visitors, we welcome you. Come, relax, enjoy our community and county, but **please** do not abuse the welcome we extend.

.....

A crack in the wall?

Hark! What light is that which pierce yonder wall? Can it be true or are my eyes deceived?

Slowly the wall, which some contend is a complete myth and fabrication in the minds of just a few individuals, which appears to divide the villages of Minden and Haliburton, seems to be cracking.

Last week the Minden council agreed to meet with their counterparts from Dysart to discuss the possibility of sharing the services of a recreation director. Earlier this year an agreement was reached between the two municipalities for the sharing in the purchase, maintenance and operation of a piece of road equipment. (Several stumbling blocks, provided notably by the provincial government, still stand in the way of an agreement.)

We firmly believe that more can be accomplished for the good of all the county by co-operative efforts similar to these two isolated, but nonetheless promising, examples. We offer congratulations to those councillors who have put aside petty grievances, real or imagined, who have dared to ford the myth of antagonism between these two villages.

May we look forward to similar promising signs that the hatchet is now buried and the wall can be dismantled? We hope so.

Lorle Valentine was one of the featured soloists during the Music Night at Archie Stouffer Elementary School Thursday. The senior students presented instrumental selections as well as a musical play based on the cartoon strip, The Wizard of Id. Lorle is seen here during the afternoon rehearsal reaching for a top performance on tip toes.

Letters Letters

Editor's note: The following letter was sent June 13 to Ontario Environment Minister Harry Parrott.

I was disturbed to see a CAN-AM tanker truck labelled "waste oil" pass by my house this morning. I discovered that it more than likely contained oil for use on our roads. Apparently the Municipality of Anson, Hindon and Minden were due to commence road-oiling in Ingoldsby this morning.

Although our Reeve has publicly stated that he has ordered oil "provided such oil contains no P.C.B.'s" I find the possibility of uncontamin-

ated waste oil highly unlikely.

Further to our previous correspondence on this subject, and, in particular, your last letter which contained an admission that only a percentage of the road oil tested had met the provincial guide-lines of 25 p.p.m., I would like to know the following:

Has an environmental impact study been carried out in this area to show the effects of the accumulation of contaminants in road oil? Although initially the count of P.C.B.'s is supposedly low, we do know that they do not readily break-down and

therefore, the cumulative effect may eventually be as dramatic as an initial high P.C.B. concentration. I regard the practice of road oiling as a slow way of making a huge Love Canal of our beautiful area.

For what other contaminants was this consignment of oil tested? Was the source purely crankcase oil or was some industrial waste oil included?

May we please have the results of your testing, specifically naming the contaminants and their concentrations.

Stanhope and Lutterworth townships apparently are successfully using calcium chloride for the suppression of dust on their roads. I regard this as a safer alternative. However, I would appreciate any work done on the environmental impact of this compound also.

Although I cannot at this moment find your last letter to me with reference to road oiling, I seem to remember some kind of commitment to carry out field studies on the impact of using oil for dust suppression over a long period of time.

Sonya Holliday-Rhodes
President
Haliburton County Anti-Pollution Committee
Minden

Editor:

I very much object to the way the writeup on high school exemption from exams was written; implying that only these students are brilliant enough to be exempted.

There was no mention made that 66% is all the person must make to be exempted and that the person must not have missed the first exam in any subject or 15 1/2 days of school.

My congratulations go to those students who have much higher marks, but are forced to write even though they have caught up, and still make, honors or are tops in their class in marks. Even with a doctor's certificate, no exceptions are made, which this year especially, with the measles so rampant, is very unfair as they have had to work even harder and should not be penalised.

Lorna Hicks,
R.R. 1,
Minden, Ont.

Editor's note: The following is the letter sent to Anson, Hindon and Minden Township council and read at the June 11 meeting.

Mr. Sinclair Nesbitt, Reeve,
Municipal Office,
Box 98, Minden, Ont.

Dear Councilmen:

I am writing this letter in deep concern for the area in which I endeavour to raise a family. I also believe that the council share my concern in the following matter.

I was in the town of Minden on Saturday afternoon, on May 17, 1980 and was not only surprised by what I saw, but thoroughly disgusted to think that I live in such a town.

In front of the drug store I encountered 3 youths drinking beer on the sidewalk. The patrons of the Rockcliffe Hotel were drinking on the street, parking lot, and surrounding area.

This is not the first time I've encountered this scene. The raffish the town attracts by having a beer garden is of no benefit to any town.

I would not take my children into such a town to view such vulgar displays of indelicacy. I only wish I had more time and taken pictures. Next time, this is my intention.

The OPP detachment tells me the situation is beyond their control due to lack of manpower.

As the town's council, I would ask you the following questions:

-Do you think you should allow such a beer garden, if you cannot properly control it?

-Do you think these scenes enhance the town to tourists, or even our local people?

-Do you think the Rockcliffe Hotel is not making enough money selling alcohol behind closed doors, that you have to let them spill it on the streets?

-What kind of town are you striving to develop?

-Do you not think you should consider the size of your law enforcement before you give out liquor licences so liberally?

Concerned citizen,
Dennis B. Willison.

Ratepayers want mass closing of township shore allowances

The Maple Lake Property Owner's Association has made a strong representation to the Stanhope Township Council with regard to the sale and transfer of the 66 foot shore allowance on the lake. The letter from the group was read at the June 11 meeting of the council.

The property owner's association requested that the township pass a by-law which would have the effect of closing all shore allowances in the township except in those cases where the shore allowance has already been opened by by-law. The association also suggested that the council set a time limit for hearing objections to the by-law and that these, if there are any, would be treated as separate by-laws so as not to impede the enactment of the closing by-law.

In conjunction with this mass closing of shore allowances in the township, the association requested that

the municipality prepare the necessary forms so that ratepayers can apply for deeds to the land. In addition it is suggested that no fee be charged by the municipality over and above the direct cost of administering the transfer.

The Maple Lake property owners also recommended that the township should withdraw any requirement that private roads at the rear of properties be turned over to the municipality in exchange for the shoreline allowance.

The letter suggested that since most existing surveys of lakefront property include a reference to the high water mark, that these be

considered the lines for the divisions between properties. "This means that, provided the original description is followed, no new survey is needed," the submission contends. It states that the policy suggested by County Council last week in which the division lines would be perpendicular to the water's edge would be expensive and wasteful.

The association also calls on the township to press the provincial authorities to pass special legislation to enable the conveyance of the allowances "en masse". "We urge the province to pass special legislation to accomplish the speedy and inexpensive conveying of these allowances. Such a step is clearly justified by the widespread nature of the problem..."

The submission indicated a great deal of concern over the proposals made by the council of Dysart et al to the county council. "We note the proposal by Dysart et al which calls for a substantial fee to be payable to the township and for any existing road at the rear of the lot to be conveyed to the township,

presumably free of charge," the letter from the association states. "The Dysart proposal will make necessary a new survey for every lot in order to establish a line perpendicular to the water's edge."

"In our view the township should not treat this matter as a revenue producing opportunity, particularly since, in almost every case, the land has been long occupied by the adjacent owner. It is now a case of a valuable township asset being sold," the letter stated.

The members of council agreed to take the comments of the association under consideration.

Appointment

Former Minden Reeve and Haliburton County Warden Reg Booth has been appointed to the Land Division Committee for the Provisional County of Haliburton. The appointment was made at the June 11 meeting of Anson, Hindon and Minden Township council.

Booth, who will represent Minden on the committee, will serve until December 31, 1982.

Special police team formed to curb rowdyism

Minden detachment OPP have started using undercover tactics to stop rowdy activity in county communities.

According to a press release issued earlier this week, a special team of officers, dressed in dirty civilian clothes and driving unmarked cars, has been patrolling various settlements in the county. Their aim is to curb carefree rowdyism and the disregard for laws. The patrols, at present, are concentrated on Friday and Saturday evenings.

According to the police, the team visited Gooderham, Wilberforce, Harcourt, Haliburton, West Guilford and Stanhope this past weekend.

As a result of the patrols 11 charges were laid under the Highway Traffic Act, three charges under the Liquor Licence Act and three under the Compulsory Automobile Insurance Act.

Logging chains stolen

Police are continuing to investigate the disappearance of logging equipment from a site in Havelock Township.

The theft is believed to have taken place May 31 or June 1, but it was not discovered until June 11.

Removed from a skidder left parked in the bush were two sets of new skidder chains and a main cable. The items were valued at \$2400.

The property belongs to Larry Hewitt of Stanhope and Eaton-Yale Timberjack Forestry Equipment Service, with headquarters in North Bay.

The investigation is being carried out by Constable Gary Chapman.

Carnarvon leads league

The Carnarvon team has taken over sole possession of top spot in the Ladies Softball League in the county. The team from Carnarvon had shared first place with the Minden team for a number of weeks. However, the two squads met Monday evening of this week and Carnarvon captured a close 18-17 win.

The Minden team put on a strong drive in the bottom of the seventh inning bringing in 11 runs before finally being put out by Carnarvon, one

Hustlers share shut-outs

The Minden Rockcliffe Hustlers split a pair of close games with Woodville during the past week.

Both contests ended with a 1-0 score as the teams traded victories.

The first of the home and home series was played Tuesday, (June 10) in Woodville. Under chilly conditions, the temperature hovered near 35 degrees F., the game stretched to 10 innings when Woodville was finally able to bring in the winning run. On the mound for the Hustlers was Craig Stamp.

Back in Minden the following night, the game slipped into extra innings again. It wasn't until the eighth inning that Bobby Johnson reached first base on a close play, stole second and came home on a double by Bernie Nichols. Jack Snell was the winning pitcher for the Hustlers.

The team plays host to Lindsay Seniors tonight (June 18), at the Minden ball diamond. The Hustlers travel to Lindsay on Sunday for a game against the Lindsay Juniors.

run short of forcing overtime. The loss puts Minden Juniors in second place in the league with a total of 14 points in 10 games.

Minden Seniors continue to share third place with West Guilford. Both squads have 12 points so far this season.

The following is a summary of last week's action.

The West Guilford ladies softball team defeated the Haliburton team 17-14 last Monday June 9. The winning pitcher was Joan McKay and Marla McNaul was the loser.

In another game on Monday, the Minden Juniors were victorious over Wilberforce.

Tuesday saw the Stanhope team play the Minden Seniors with the Seniors winning 13-12. This was Stanhope's first defeat of the season. Nelda Culley was the winning pitcher, Marg Darby the loser.

Also Tuesday, Minden Juniors were in Irondale to

take on the Snowdon Angels. The Angels won 27-24 with Eileen Simmons winning and Darlene Danilko taking the loss.

Three games were played on Wednesday. In the first Minden Seniors defeated Wilberforce 24-15. Nelda Culley was the winner and Susan Rowbottom took the loss.

Gooderham won their game against Snowdon Stompers 26-24 in Lochlin. Anne Burke was the losing pitcher.

In the other game Stanhope was beaten badly by the Irondale team. Cathy Darby won the game.

Snowdon Stompers were in Gooderham Thursday and won the game 16-15. Bubs Martin was the winner.

Also Thursday, West Guilford was at Haliburton and were victorious 20-12. Joan McKay won the game for West Guilford, Marla McNaul took the loss.

Seniors brought together for meal and visiting

Senior citizens in two areas of the county, who might not have been able to get out for a meal, enjoyed a pleasant outing earlier this month.

The occasion was the first in a series of "Wheels to Meals" get-togethers co-ordinated by the Haliburton County Home Support Services.

While some "younger"

Minden native marks 98th

Minden native, Lieutenant Ida M. Noice celebrated her ninety-eighth birthday last Thursday. Lieutenant Noice is currently under care at the Sunnybrook Hospital in Toronto.

She was born in Minden in 1882 and, following her graduation from high school, attended Ontario Ladies College. She then travelled to Ottawa where she began her nursing career, working in the Ottawa General Hospital. She is a graduate of the Lady Stanley Institute of Professional Nursing.

She joined the Canadian Army Medical Corps during the First World War and was a nursing sister with the rank of Lieutenant. She is believed to be one of the few Canadian nurses who served during the 1914-18 conflict to still be alive.

Walter Noice, a brother of Ida Noice, still lives in the Minden area.

(This report was prepared with the assistance of the Thorold News).

volunteers were called on to assist with driving the senior citizens to a central location for the meal, in a number of cases seniors with vehicles also helped. According to Marie Wallace, co-ordinator of the program, the participation of the senior citizens as providers of transportation is an important aspect of the home support service. She notes that in many instances the senior volunteer is more aware of the problems faced by a fellow elderly citizen and can contribute to the success by encouraging others to get involved.

On June 10, one dinner was held at Sunny Rock Lodge at Scott's Dam for seniors from Gelert, Ingoldsby, Lochlin and Donald.

The hosts for the noon meal were Lorna and Barrie Shaw.

Convenors of the program were Mrs. Bessie Burke and Mrs. Gladys Reid.

Sir Sam's Inn at Eagle Lake was the site for a second dinner held on June 11. Liz and James Orr welcomed the seniors to the resort.

During the summer, the convenor will be Mrs. Marion Clift.

"Wheels to Meals" gives seniors the opportunity to socialize with their friends and neighbours as they enjoy a modestly priced meal together.

If you want more information, have any suggestions to make that would help the seniors in the area or wish to help yourself, contact the Haliburton County Home Support Services in the Municipal Building in Haliburton at 457-2941.

Council presses for full fee from plant dealer

Anson, Hindon and Minden Township council will continue to press a local plant dealer for a transient trader's licence fee, even though he claims he has sold his plants to another merchant who is already paying business tax. The matter was raised at the June 11 meeting of the council.

The township by-law enforcement officer, Dick Schell had requested Peter Kraemer of Kraemer's Greenhouses pay a pedlar's fee for selling his box plants in town. The greenhouse operator is currently selling his products from the fruit market building on Bobcaygeon Road. The fruit market, which only operates during the summer months, is owned by John Dennys.

According to a letter written to the council by Dennys, Kraemer had in effect sold him all the bedding plants he was offering for sale at that location, and that

Kraemer was merely acting as his agent in selling the plants. The letter indicated that since the fruit stand owner had already paid business tax, and was now the owner of the bedding plants, there was no reason to press Kraemer for the fee.

Reeve Sinclair Nesbitt disagreed with this assessment. He said he felt this arrangement did not conform with the by-law and that Kraemer owed the municipality \$150 for a transient trader's permit.

By-law officer Dick Schell told the meeting that according to the Ontario government, Ontario grown produce can be sold anywhere in the province if a \$5 fee is paid.

The reeve said that he did not consider the plants to be products of a farm in the same way that vegetables or fruits would be. He suggested that the council stick to his interpretation and that they force Dennys and Kraemer to

prove that their interpretation of the by-law is incorrect. "Let's put the onus on him," Nesbitt commented, "He is selling products here, let's have him prove that he does not need a licence."

The other members of council agreed with this stand. Councillor Lyle McKnight said that if a large number of transient traders are allowed to operate in the community it would ruin the permanent businesses. "I don't agree with the seasonal operations like the fruit stand," McKnight commented.

The reeve pointed out that the permanent businesses in the community pay a business tax. "They are here to meet our needs all year long," the reeve said. "We should do something to protect them."

Water line

In a related matter, the council agreed that the chip stand, located to the south of the fruit stand, should have to pay for water services. The meeting was told that the chip stand is currently supplied with water through a hose connected to an outlet in the fruit stand.

It was pointed out that the provisions of the by-law covering the supply of water to homes and businesses in the community includes the stipulation that the water cannot be shared with a neighbour. The councillors said the situation at the chip stand contravened that stipulation and that the owner of the stand, Dave Titus, should pay separate water charges.

Correction

A report on water rate increases contained in the June 4 edition of The Times stated that the last time the rates had been increased was in 1978. This was incorrect. The rates were last increased in 1968.

Also, as a point of clarification: This discussion at Anson, Hindon and Minden Township council when the rate increase was being considered, noted that the ratepayers are still responsible for the deficit in the water system. It was pointed out that whether the funds come from increased water rates or increased taxes, the money still has to be raised to cover the deficit. If taxes are used to help cover the deficit, only those properties located in the area where water service is available (generally Minden Village) will carry this additional burden.

Minden and Dysart to discuss sharing recreation director

Minden and Haliburton councils have agreed to meet to discuss the possibility of hiring a recreation director to serve the two communities.

The Minden council agreed to the proposal at the June 11 meeting.

Councillor Lyle McKnight, one of the council's representatives on the Minden Recreation Committee described the group as an "arena management committee" rather than a "recreation committee" as the title indicates.

Councillor Len Lonsberry said he was in favour of meeting the Dysart et al council to discuss the possibility of sharing the services of a recreation director.

Reeve Sinclair Nesbitt pointed out that the council had "nothing to lose" by meeting with their counterparts in Haliburton. He noted that neither township can afford a recreation director and that co-operating might prove to be advantageous for both communities.

The reeve described the

meeting as "a good move. Too bad we don't do more things together."

Students compete in county meet

Students from four county elementary schools met on Friday, June 13 at the Haliburton High School for a day-long track and field competition.

The schools, Cardiff, Dorset, Haliburton Senior Elementary School and Archie Stouffer were divided into two groups for the day's activities. The Haliburton and Minden schools were in Group A and Cardiff and Dorset were in Group B.

The students competed in track events, shot put, high jump and long jump.

The winner of the over-all championship in Group A was Haliburton Senior Elementary with 263 points. Archie Stouffer Elementary finished second with 171.

Cardiff won the over-all championship in Group B with 173 points while Dorset had 115.

Champions were also named in each of the competition divisions. The champions and second and third place finishers in each section are listed below:

Group A

Senior Boy's Champions:
Tracy Nesbitt, Minden; Barry Boice, Haliburton; Kirk Thayer, Haliburton.

Senior Girl's Champions:
Cindy McLean, Haliburton; Shona Ross, Haliburton; Rose Daigle and Lisa Malott, Haliburton.

Junior Girl's Champions:
Heidi Tashlin, Haliburton; Lindsay Tashlin, Haliburton; Lori Valentine, Minden.

Junior Boy's Champions:
Greg Pearson, Minden; Kelly Mitchell, Haliburton; Theron Pine, Haliburton.

Group B

Senior Boy's Champions:
Steven Covert, Cardiff; Steve Avery, Dorset; Todd Hughes, Dorset.

Junior Boy's Champions:
Kevin MacKay, Dorset; David Hurst, Cardiff; Danny Allen, Cardiff and Steve McKay, Dorset.

Senior Girl's Champions:
Tracy McCormick, Cardiff; Gina Cheverie, Cardiff; Heather McGregor, Dorset.

Junior Girl's Champions:
Wendy Palmer, Cardiff; Lynda Hall, Dorset; Tanya Davies, Cardiff.

Building requires internal support

The Ontario Ministry of Labour has advised the township that the existing curling club cannot be used in the winter unless structural repairs are carried out to the building.

The municipality has requested permission to use the facility for storage during the winter months and had asked whether further repairs would be needed.

The Ministry had declared the building unsafe for winter use last year but allowed the Curling Club to continue operation provided the snow load on the roof was monitored on a daily basis. Special reinforcement work also had to be carried out in the building before it could be used during last year's curling

season.

The letter from the ministry noted that if the building was to be used for storage it would be considered an industrial use and the soundness of the building would have to meet ministry standards. However, it was also pointed out that since the building no longer could be used by curlers it may be possible to reinforce the structure by using internal supports.

This method could not be used last year because the internal supports would have interfered with the curling playing surface.

The ministry requested that the township submit plans for the reinforcing of the building before it is used for storage next winter.

Corporation of the Township of Anson Hindon and Minden

NOTICE

IN THE MATTER OF THE Municipal Act and IN THE MATTER OF a proposed By-law of the Corporation of the Townships of Anson, Hindon and Minden to stop up and close to vehicular traffic only and not to pedestrian traffic a portion of the Taylor Road located in Lot 9, Concession IX in the Township of Minden.

NOTICE IS HEREBY GIVEN pursuant to Section 443 of The Municipal Act R.S.O. 1970 as amended, that the Council of the Corporation of the Townships of Anson, Hindon and Minden at its Regular Meeting to be held at the Municipal Council Chambers, Milne Street, Minden on WEDNESDAY, AUGUST 13th, 1980 at 9:00 a.m. proposes to consider and, if deemed advisable declare its intention to pass, following appropriate statutory notice to the Clerk of the County Council of the Provisional County of Haliburton, a By-law to close to vehicular traffic only and not pedestrian traffic the above-noted portion of roadway, the centreline of which being more particularly described as follows:-

ALL AND SINGULAR that certain parcel or strip of land and premises, situate, lying and being in the Township of Minden, in the Provisional County of Haliburton and being composed of a strip of land presently used for road purposes, the centre line of which may be described as follows:

PREMISING that the bearings herein are astronomic and derived from the North Westerly limit of Highway 35, having a bearing of North 24 degrees 34 minutes East as shown on Plan 19R-215.

COMMENCING at a point in the Westerly limit of Registered Instrument Number 32269 which is distant 1771.4 feet measured on a course of North 24 degrees 31 minutes 30 seconds East from the South Westerly angle of the said Lot 9:

THENCE North 68 degrees 19 minutes East, 105.87 feet;

THENCE North 87 degrees 16 minutes 30 seconds East, 64.59 feet;

THENCE Easterly along a curve to the right having a radius of 190.0 feet, an arc distance of 141.55 feet and having a chord equivalent of 138.30 feet when measured on a course of South 71 degrees 22 minutes 55 seconds East;

THENCE South 50 degrees 02 minutes 20 seconds East, 55.73 feet;

THENCE Southerly along a curve to the right having a radius of 120.0 feet, an arc distance of 161.26 feet and having a chord equivalent of 149.39 feet when measured on a course of South 11 degrees 32 minutes 30 seconds East;

THENCE South 26 degrees 57 minutes 20 seconds West, 44.79 feet;

THENCE South 33 degrees 07 minutes 20 seconds West, 94.32 feet;

THENCE Southerly along a curve to the left having a radius of 160.0 feet, an arc distance of 103.36 feet and having a chord equivalent of 101.57 feet when measured on a course of South 14 degrees 36 minutes 55 seconds West;

THENCE South 3 degrees 53 minutes 30 seconds East, 91.07 feet;

THENCE South 10 degrees 45 minutes 30 seconds East, 115.19 feet to a point in the North Westerly limit of Highway 35 which is distant 50.0 feet measured perpendicularly to the centre line of the said highway as defined by Plan 19R-215.

The centre line of which said parcel or strip of land may be further illustrated on a plan drawn by H.C. Bishop, O.L.S., dated February 11, 1980, and hereunto attached.

AND FURTHER TAKE NOTICE that before passing said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Council, Solicitor or Agent any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at MINDEN this 4th day of June 1980.

(Mrs.) Elinor Burke, A.M.C.T.
Clerk-Treasurer
Townships of Anson, Hindon
and Minden
Box 98, Minden, Ontario

The plan referred to herein is available for perusal at the Municipal Offices during normal office hours.

SENIOR LEAGUE

by Linda English

This week, the weather turned drastically. Monday morning it was snowing, which is really unusual for June. However, we warmed up at fun and fitness. We did our exercises to music and had a vigorous game of Kick the Ball. Later on the ladies went to crafts to work on their projects. We are working hard these days preparing for the Bazaar in July.

Tuesday morning, it was a pleasure to listen to the inspiring message delivered by Evelyn Coleman at Chapel. Agnes Taylor accompanied us on the organ while we sang some gospel hymns.

It was a special day for Alice Pogue when she celebrated her birthday. Mrs. Pogue was presented with a decorated cake and best wishes from the staff.

In the afternoon, we all watched two interesting movies. "A Walk In The Forest" was filmed in an evergreen forest in South America. We watched the life changes and patterns of the animals and plants in the forest. We saw how fire ruins the homes of the many inhabitants, and it was explained

that "if man looks after the forest, it will look after him." "Royal Doulton" showed us how the finest china is made. Clay is turned into liquid, then extracted into dough. The dough is shaped and baked, sanded and then polished, some by machine and some by hand. The beautiful dinner sets are hand painted and very expensive.

The Horticultural Society of Minden brought a delicious assortment of home-made goodies for the Thursday tea party. Our residents always enjoy the weekly tea parties and the visits from the many groups of ladies.

Friday afternoon, Mrs. Ruth Thompson led us in the singing of old familiar hymns and songs. Lucille Clarke came to play the piano, and everyone had a good time as usual singing along.

Hyland Crest is now serving Meals on Wheels to six or seven Minden residents every other day. The program is working out very well, and I've heard these people are very happy with the delicious food.

It's strawberry season again.

The first fruit crop in Ontario each year, is one of the most delicious - strawberries.

The strawberry growers in Victoria County expect the first fruit to be available between June 18 and 21. From then until mid July there should be an abundant supply of berries in this area.

Strawberries are the most popular "Pick-Your-Own" crop in Ontario. All the large growers in Victoria County operate on a pick-your-own basis. Over 50 acres of berries are in production here this year.

Several different varieties of strawberries are grown in the area. All of them are excellent for eating fresh, freezing or preserving.

The Redcoat variety is a traditional favourite. Veestar is a newer dark red variety, which tends to retain more colour after freezing. Some other varieties are later maturing, so help to extend the strawberry season.

There are six Pick-Your-Own strawberry patches in Victoria County of which we are aware.

Kent's are located on Highway 35 - 2 miles south of Highway 7. They will have berries for the first time this year, with a three acre patch of Redcoat, Veestar and Guardian varieties.

Poder's have seven acres of berries on the River Road, off Highway 35 south of Lindsay. Redcoat and Veestar are their main varieties. Mrs. Poder assured us they haven't been using any pesticides on their berries.

Robertson 1867 Farm has the largest operation with over 20 acres of strawberries. Veestar, Vibrant and Bounty

Farm News & Views

are their main varieties. The Robertson farm is located on the Scotch Line, south of Highway 36 between Bobcaygeon and Dunsford.

Sebright Gardens are operated by D'Arcy Elson on Highway 503 about two miles east of Sebright. Redcoat and Veestar are the main varieties in their 12 acre berry patch. Elson's sell their berries by weight, so any kind of container is acceptable.

Valentia Gardens are just north of the village of Valentia - south east of Little Britain. Harry Puusme has five acres with Redcoat, Veestar and Vesper as their main varieties.

Zimmerman's have four acres of Redcoat berries in production this year. They are located on the Sixth Concession of Mariposa Township, about 3 1/2 miles

west of the Oakwood to Little Britain County Road.

All the growers ask that you bring your own containers, however, most have a small supply of baskets which they will sell you if necessary. The standard container for pick-your-own is a 6 quart basket. Most growers have a basic price for a level basket, and a higher price for a "jumbo" or heaped full basket.

Don't forget that the weather can seriously affect strawberry production, and the grower has no control over this. If it's too cold, or too dry, or too wet, the berries might not be as large, or ripen as quickly as you expect. As a result it is possible for a grower to have to close up for a day or two until more berries ripen.

Also remember that a strawberry patch is NOT a

playground for children and pets. Leave them home, rather than cause problems.

The main advantage to picking your own berries, is that you can eat them or freeze them or preserve them, the same day they are picked. That's when you get the peak of quality and flavour. If you're picking for freezing or processing, plan your program so you can complete the whole operation the same day you pick the berries. Picnic coolers can help keep the berries fresh during the trip home. Don't forget strawberries are fragile, so be very careful not to crush the berries in whatever container you choose.

So enjoy some locally grown strawberries, both now during their season and during the months ahead from your freezer or jars.

AROUND THE TOWN

by Jeanne Sears

Sincere sympathy goes to the families and friends of the late Glendon Clarke and Mary McCrea whose funerals were since last week.

Heaven is a plot by my back door,
Just twelve feet six by nine,
Where I can potter happily,
And sit out when it's fine,
Or pick a flower or two to share
With those bowed down by grief or care.

Anon

We have been calling in the Encyclopedia which have been borrowed from Minden Library with great success, but now find that no one can account for volume 15 of Encyclopedia Britannica; perhaps you might have this at your home or in your bookcase, we would surely appreciate getting it back. If you have this book or other over-due books please bring these back immediately.

All good wishes go to these people who are in hospital or have just returned home: Irene Burns, Dave Harrison, Taylor Kernohan and Irene Moxam.

This is a Special Day for Della Griffin, happy 80th Birthday Della! May you have many more.

Roger Austen and family of Woodville visited on Saturday with his parents Mr. and Mrs. Harry Austen of

Brady's Lake.

Wedding bells were ringing on the weekend with congratulations to Mr. and Mrs. Willard Paul (nee Sandra Anderson) who were wed on Saturday.

Glen Stamp of Oshawa was visiting relatives over the weekend.

Guests with Mrs. Arnold Coulter were Mrs. Ray Rivers and boys of Downsview.

Sunday guests with Lilian and George Davidson were Shirley and Peter Davidson of Toronto.

Grant Porter and his fiancée, Irene Banis, of Victoria B.C. have been visiting the former's parents Mr. and Mrs. Bill Porter.

We were told that prices have gone up at the local laundromat, so bring enough change for your washing.

Florence Booth of Oakville visited with the Lorne Bulls over the weekend.

There was a Farewell Party at the Earl Bird home last Friday night in honour of Dennis Moore, with those present being the Birds, the Allan Brydsons, the Bill Moores, and Mrs. Ben Harrison. Dennis has now finished his course at Borden and now returned home to B.C.

It's no use pretending the sky's always blue,
That life's just a beautiful song;
Clouds often arise, and for me and for you
The shadows of sorrow lie long.
If we're to keep on, we must somehow grope through
The darkest and stormiest night,
Assured that, with courage and faith, we'll come to
A day that is sunny and bright.

Anon

Did you notice the Cross Stitch Quilt in Cox's window? The A.C.W. of St. Paul's are raffling this at their bazaar on July 19th and the quilt was made by former resident Anne Dawson. Sure would be grand to win, so get your tickets soon.

One coming event is the bag sale at St. Paul's Parish Hall upstairs, this Friday June 20 from 2-4. A great way to get a bargain.

Sure have had some bad frosty nights, with most people losing their delicate plants, wonder when it will warm up. Universities and high school are over for another year with a week or so for the other students. Ours is a busy village and the roads are busy so drive safely. Cheerio until next time.

Lines from Lutterworth

by Jean Lacey

Hi! Sure was down right chilly last week, with some snow, hail and rain all mixed together; but the weekend didn't turn out half bad, with Saturday being sunny and warm.

Lee Oster has been up all week visiting.

Congratulations to Mrs. Shirley Colliss in her appointment to Bill Roodenburg's Real Estate.

Do you know why we don't have a golf course in Lutterworth Township? Because it is so healthy all the holes heal over.

Have been told that despite the weather there was a good turn out at the Stanhope Air Show. The pilots put on a good display even though there was a very low ceiling.

Motorists be on the lookout for children as Friday is the last day of school and they will be out and about for the summer months.

A Special Kind of Friend
If there's someone you can talk to,
Someone no one can replace.

If there's someone you can laugh with,
Till the tears run down your face,
If there's someone you can turn to,
When you need a helping hand,
If there's someone you can count on
To advise and understand,
If there's someone you can sit with
And not need to say a word,
If there's someone you can trust,
To keep each confidence she's heard,
If there's someone you think more of,
As each year comes to an end,
You're a very lucky person for you
Have found a special friend!

Give the guys who fix the roads and guide rails a wave as you go by. They do work hard.

Hint of the Week
Sprinkle salt on damp mud spots on the carpet. Give the salt at least 15 minutes to soak up the mud, then vacuum up and away.

Take it easy now. God bless till next time.

Canada's Birthday

La Fête du Canada

Concerned about snow

A request that the township find another method of disposing of snow in the winter has been made by the Minden and District Horticultural Society. The group petitioned the council in a letter read at the June 11 meeting.

The letter noted that snow which is pushed from the roads into the Gull River is injuring the trees and plants along the banks. It requested that the township seek other means of disposing of the snow.

Reeve Sinclair Nesbitt said the matter should be looked into but no promise was given that alternate disposal procedures would be used in the future.

A Penny's Worth

by Yvonne Penney

High school students are looking happy these days - the reason - school's out for summer vacation. Most of these young people are beginning summer jobs but some are still looking for summer employment.

Best wishes are extended to Libby Harrison and Les Clark who are patients in Peterborough hospitals.

The Fly-In dance held this past weekend at the Stanhope Firefighter's Hall was a success and was well attended. The planning committee are to be commended for the well-organized evening - the music was varied and the buffet served at midnight was delicious.

The weather didn't cooperate again for the Stanhope Fly-In on Sunday. However, many people braved the cold and the rain to participate and watch the events which were available. Plans are for some events to be shown next month (weather permitting).

Many of our "Seniors" who live alone are taking advantage of the "Meals on Wheels" program which has begun recently. One gentleman told me that the meals are delicious and he certainly appreciates the service three days a week.

Sunday School attendance pins were awarded last

Sunday during the service at Zion United Church here. The pins were awarded by the Sunday School superintendent, Elgin Stouffer. The annual Sunday School picnic is planned for next week-end.

Garth and Helen Windsor, of Hornepayne, along with their daughter and her husband, Mr. and Mrs. Jim

Swartz of Oshawa visited with Mr. and Mrs. Maurice Windsor last weekend.

The June meeting of the Carnarvon U.C.W. was held last Wednesday and took the form of a pot-luck luncheon. Senior citizens of the area were in attendance and films were shown of church activities of previous years.

1980 MINDEN SWIM PROGRAMME

REGISTRATION for the above classes will be held at the **MINDEN DOCKS** on Saturday, June 28, 1980 from 11:00 a.m. to 3:00 p.m.

CARD OF THANKS

On behalf of our committee, we wish to thank the families and all the people who gave their help to us Saturday and Sunday at the Fly-In. Most of all, we thank the public for turning out and supporting us under very poor weather conditions.

Stan Moore, Chairman
Pamela Rolfe, Sec/Treas.

Thankyou - for all the wonderful cards and gifts, they certainly kept up my spirits and got me on the road to recovery. Thanks also to Dr. Holliday - Rhodes who directed me to 3 wonderful specialists in Peterborough.

Sincerely,
Marian Ingram 6C

IN MEMORIAM

PROCENKO - In loving memory of our son and brother Michael, lost to us June 23, 1978.

Our hearts still ache with sorrow
 And silent tears will flow
 For what it meant to lose you
 No one will ever know.
 We think of you in silence
 And ever speak your name
 But all we have are memories
 And your picture in a frame.

Very sadly missed by Mom,
 Dad and Lisa. 6C

In memory of our little friend and neighbour, Michael Procenko, taken from us June 23, 1978.

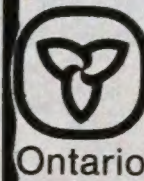

The memory of his dear wee ways
 Will linger with us, all our days

— As we loved him —
 — So we miss him —

NOTICE

The Ministry of Natural Resources will resume the sale of fuelwood at the Municipal (i.e. Anson, Hindon, & Minden) borrow pit, located approximately 3 miles North of Minden on the Bobcaygeon Road, commencing Wednesday, June 25, 1980.

Sales will be conducted between the hours of 8:00 a.m. and 5:00 p.m. on Wednesdays and Saturdays thereafter until further notice.

Ministry of Natural Resources
 Hon. James A. C. Auld
 Minister
 Dr. J. K. Reynolds
 Deputy Minister

YOUR FRIENDLY G.M. DEALER

CURRY MOTORS LTD.
HALIBURTON 457-2100

Myth:

To get good fuel economy you have to buy a small foreign car.

Fact:

This GM World Car is rated at 36.2 MPG[†] and is built in North America.

Chevette and Acadian have fuel economy ratings[†] that can not be beaten by any other North American car with a gasoline engine, including VW Rabbit!

Our World Car's fuel economy ratings help make it the best-selling small car in Canada.* But we think its popularity is the result of *all-around* value—at a price for Chevette Scooter and Acadian S[†] that is lower than any 1980 Honda, Datsun or Toyota Hatchback, and is \$2,167 less than the cheapest VW Rabbit[†].

All Chevettes and Acadians are four-passenger hatchbacks with comfortable full-foam seats, cut-pile carpeting, radial tires, rack-and-pinion steering, a maintenance-free battery, electronic ignition, an eager overhead-cam 1.6 litre 4-cylinder engine and 4-speed manual transmission. Plus extensive corrosion-resistance protection.

It all adds up. There are also 2- and 4-door Chevette and Acadian models available with a more extended list of standard features including an AM radio, reclining bucket seats, bodyside moulding, white-stripe radial tires and much more.

Drive one. Discover a small car that is smooth and quiet, has plenty of get up and go, and makes you feel good driving around town or heading down the highway.

Versions of these cars are sold on six continents. They are part of a continuing General Motors program to develop cars for a fuel-conscious world. It is this concept that helps explain the quality of Canada's best-selling small cars. Their popularity is proven.

This GM World Car is built to keep its good looks, with parts and service readily available at nearly 7,000 dealers across North America (over 1,000 in Canada), and, unlike the top four imports, it offers an optional Continuous Protec-

tion Plan. Ask your dealer for details. Whether you're buying or leasing, test drive one soon. Chevette at Chevy dealers, Acadian at Pontiac dealers.

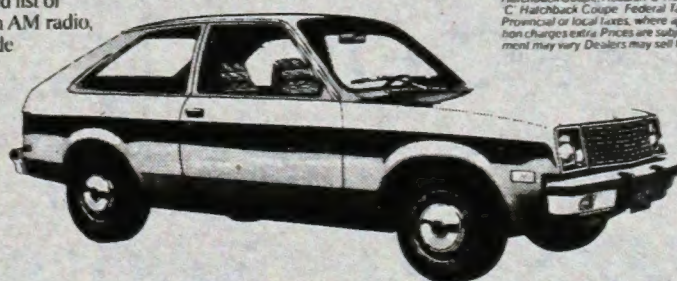

*Based on R.L. Polk records of combined new vehicle small car registrations for each car manufacturer in Canada for calendar year 1979.

36.2 MPG[†]
 TRANSPORT CANADA RATING
 FOR STANDARD-EQUIPPED VEHICLES
7.8 L/100 km

[†]Based upon Transport Canada approved test methods. Remember, these fuel consumption/economy figures are estimates. The actual results you get will vary depending on the type of driving you do, your driving habits, your car's condition and optional equipment.

[†]Chevette or Acadian \$4,678
 VW Rabbit \$6,845

Manufacturer's Suggested Retail Price for Chevette Scooter Hatchback Coupe, Acadian S[†] Hatchback Coupe and VW Rabbit C[†] Hatchback Coupe. Federal tax included as of April 1, 1980. Provincial or local taxes, where applicable, freight and registration charges extra. Prices are subject to change. Standard equipment may vary. Dealers may sell for less.
